JAF Consulting, Inc.

JAF Consulting, Inc. is a premier Global Quality and Regulatory Compliance Services consultancy, specializing in elevating industry standards through Quality Assurance as a Service (QAaaS) and the meticulous management and execution of Computer System projects within the Pharmaceutical, Life Science, Nutraceutical, and Medical Device sectors.

OUR EXPERTISE:

We excel in a comprehensive range of services, including Computer & Process Validation, Clinical Quality Assurance, Quality Management, Auditing & Assessment, and Training & Education. Our seasoned team brings extensive experience in navigating global regulations, such as GMP, GCP, GLP, as well as industry standards like HITRUST, EHNAC, ISO, and GAMP.

YOUR TRUSTED PARTNER:

JAF Consulting, Inc. collaborates closely with organizations seeking rapid, turnkey Quality Assurance support. When you engage with us, you gain access to top-tier services with a proven track record for practicality, pragmatism, and cost-effectiveness. We guide our clients in meeting the ever-evolving regulatory expectations and requirements by emphasizing a well-structured, logical approach throughout every project phase.

OUR MISSION:

We deliver innovative, practical, and top-quality services that ensure our clients' compliance with current regulations and industry standards pertinent to their operations. We go above and beyond to exceed our clients' expectations, treating every team member with the utmost respect, candor, professionalism, and integrity. We foster partnerships with our clients, built on mutual dedication to achieving and sustaining the highest levels of compliance. As industry leaders and innovators, we actively contribute to our business community's growth and progress.
